

BUS CONNECTS

Do Chathair, Nasctha Níos Fearr
Your City, Better Connected

Liffey Valley to City Centre Scheme

This is an Easy to Read Guide.

What is BusConnects?

BusConnects is a way to make public transport better for everyone in Dublin.

Travel times will be more reliable.

It will be easier and safer to walk and cycle in Dublin.

There will be more bus services across the city.

What is BusConnects?

The buses will use 12 new bus corridors.

There will be more cycle lanes.

We will start building the Liffey Valley to City Centre Scheme in Autumn 2025.

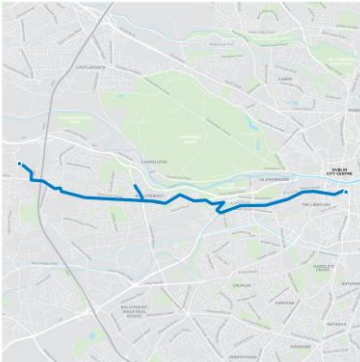

BusConnects will bring good changes to our streets and towns.
It will make our city a better place to live and work.

The Liffey valley to City Centre Scheme

This route will connect Liffey Valley to the heart of Dublin.

You can see the full route at
www.liffeyvalleyscheme.ie

The Liffey Valley Route

This route starts at Fonthill Road.
It connects to the new bus stops at Liffey Valley Shopping Centre.

It goes to Coldcut Road.

From there it goes to Ballyfermot village
to

Sarsfield Road
to

The Liffey Valley Route

Grattan Crescent
to

Emmet Road and James's Street
to

Thomas Street and High Street
to

City Centre.

Talking to the Community

We are putting our final plans together before building starts later this year.

We promised to talk with communities on the route.

- We have a new website with all the latest information:

www.liffeyvalleyscheme.ie

- We will set up local groups to meet with the NTA and the builders.

Building the corridors

There will be roadworks.

The corridors will be built in stages.

This will mean less traffic problems.

We will think carefully about the people living near the roadworks.

We will try to cut down the effect on them.

We will look at ways to make good changes to streets and towns when the building is finished.

Building the corridors

We will talk to local communities about how we can make things better.

We will talk about better shared spaces and green areas.

Good things about BusConnects

| | |
|--|--|
|  | <p>A more reliable journey.</p> |
|  | <p>More people using buses.</p> <p>People need to use their cars less.</p> |
|  | <p>Better access for everyone.</p> <p>Safer spaces for walkers and cyclists.</p> |
|  | <p>Less pollution and better air for us all to breathe.</p> <p>Better for the environment.</p> |
|  | <p>Safer cycling.</p> |
