What's happening?

Construction works for the BusConnects Liffey Valley to City Centre Core Bus Corridor Scheme commenced in May 2026 at **Liffey Valley Shopping Centre** and will continue along **Fonthill Road and Bóthar an Life** until the end of Q4 2026.

The next section of works is expected to commence in late **August 2026** along **James Street**, between **Bow Lane West and Crane Street**. This section of works will be carried out in five phases. Works in this area will include an upgraded road layout, improvements to bus lanes, new bus stops, upgraded public lighting, new pedestrian crossings, improvements to existing road facilities, and the provision of dedicated cycle lanes.

To facilitate these works safely, temporary traffic management will be in place throughout the works. Temporary lane closures will be implemented to provide a safe working area, and traffic islands will be temporarily altered, with road markings realigned to suit the temporary traffic management arrangement.

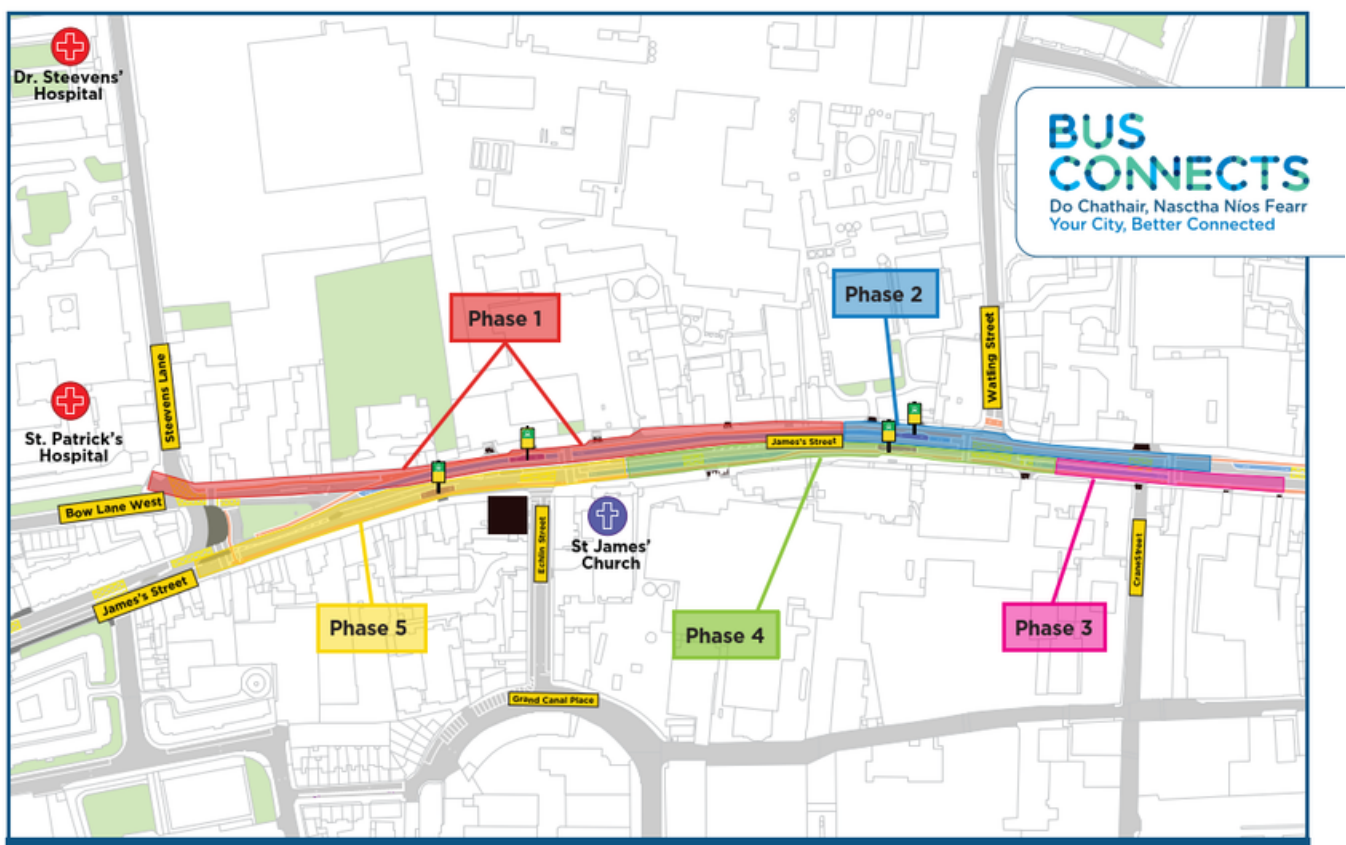

When will works begin?

Works are expected to begin in **late August** and to continue until the **middle of December**, subject to change. Figure 1 outlines the works area and identifies the different construction phases (Phases 1–5) which will be carried out in five sequential phases. The timing and duration of each phase may vary as construction progresses.

How will access be maintained?

Access to homes and businesses will be maintained throughout the works. Where temporary changes to access are required, residents and businesses will be notified in advance.

Hours of operation

Working hours will be between **07:00 AM - 23:00 PM Monday to Friday and 08:00 AM - 16:30 PM on Saturdays**. Some activities may need to take place outside of these hours. The project team will continue to update the public on ongoing works in the area and will notify you in advance of any night-time works taking place.

Temporary Traffic Management Measures

Traffic management measures will be implemented to support the safe and efficient delivery of the works. These will be introduced in phases and carefully planned to protect road users, pedestrians, and site personnel, while minimising disruption to traffic as much as possible. Please see examples of measures listed below:

- **Temporary traffic management** will be in place on **James's Street** between **Bow Lane West and Crane Street** throughout the works.
- Works will begin on the **inbound side of the road** before **progressing to the outbound side** including any central island works. Construction will be carried out in phases, with works taking place on one side of the road at a time to minimise disruption and maintain safe access.
- **Footpaths and cycle lanes** may be **temporarily closed** in sections. Pedestrian routes may change throughout the works and will be clearly signposted. Please follow all directional signage and use the designated crossing points to ensure your safety.
- Some of the **existing bus stops may require temporary suspension or relocation** to facilitate the progression of the works. These will be notified in advance.
- **Temporary road markings and signage** will be in place throughout the duration of the works. Please take extra care and follow all temporary traffic management measures.
- To facilitate the safe delivery of the works, the **roadway and adjacent footpaths within the work zone must be kept clear and free from parked vehicles at all times**.
- The **pay-and-display parking spaces and bike rack facilities** on the inbound side of **St. James's Street**, between **Bow Lane West and Watling Street**, will be restricted for periods during the works.
- **Bike parking and bicycle rental facilities within the works area may be temporarily restricted or relocated** for periods during the works. Advance notice will be provided where possible.

Bearta Sealadacha Bainistíochta Trácht

Cuirfear bearta bainistíochta trácht i bhfeidhm chun tacú le seachadadh sábháilte éifeachtúil na n-oibreacha. Tabharfar na bearta sin isteach i gcéimeanna, agus déanfar iad a phleanáil go cúramach chun úsáideoirí bóithre, coisithe agus pearsanra an láithreáin a chosaint, agus cur isteach ar thrácht a íoslaghdú a oiread agus is féidir. Féach samplaí de bhearta a liostaítear thíos:
